

## DRAWING A GEOMETRIC CUBE:

The cube is the basic geometric design.

When assimilating this technique, we can draw any decor based rectangles and squares.

*Watch this video and follow the steps to draw a cube in perspective.*

<https://www.youtube.com/watch?v=n99xsbn7adl>

### **Materials:**

- A pencil.
- Paper.
- Rubber
- A ruler.

You will see at the end of the video, the artist returns to his features dark by outlining with a thin black marker. This helps bring out the important features. Once your features are highlighted, you can then erase all the features of construction that you used to create your cube perspective that were drawn in pencil.

You can press the 'PAUSE' button to stop the video and perform each of the steps at your own pace.

In addition, you can also learn how to draw an easy 3D cube illusion by watching this video: <https://www.youtube.com/watch?v=j4QuvD3aDe4>
